

In Cablex's hire selection, you'll find a wide range of Klauke cutting and crimping tools as well as Greenlee punching tools. Our selection also includes crimping die sets.

Hire Period and Price

- The minimum hire period is 1 day.
- If the delivery method is "delivered", freight days will be added to the hire period.
- Hire prices are quoted excluding VAT (0% VAT).
- The daily hire prices of machines include shipping costs within Finland.

Tool Hire Order

- Complete the order form on our website: cablex.fi/en/tools/hiring/
- Email the completed form as an attachment to: cablex@cablex.fi

Pickup and Return of Hire Machine

Pickup

- Pickup and return address: Cablex Oy Warehouse, Kärämäentie 23 / Pickup Door, 20360 Turku.

Delivered

- Ordering a hire machine: Cablex arranges the freight according to the delivery details provided in the order form.
- Returning a hire machine: Call Kaukokiito's transport order service on 0100 4321 (call cost: €1.17/call + €2.00/min + local/mobile network charge) and provide the following information:
 - o Recipient: Cablex Oy, contract number 366176
 - o Sender's details: Name, address, postcode, and city
 - o Shipment details: Weight, dimensions, and any other relevant information for pickup
 - o Pickup time: When the item is available for pickup and the contact person responsible for the pickup arrangements

Klauke's cutting and crimping tools represent top-quality industry standards, ensuring durable and compliant connections. It is essential that the cable lug, crimping tool and crimping dies all follow the same dimensioning standards. Additionally, the cable lug or butt connector must be compatible with the conductor type in use.

With Greenlee punch tools, you can create precise and clean cut-outs quickly and effortlessly. They are suitable for punching plastic, aluminium, steel and stainless steel. The punches split the cut piece into two parts, making removal easy and efficient.

Please note: A hydraulic tool is required for stainless steel and rectangular punch operations!
